

NATURAL RESOURCE MANAGEMENT BOARD COMMUNIQUE

The Natural Resources Management Board held its **20th meeting on Monday 3rd September**.

The purpose of this meeting was to assess the Expressions of Interest (EOI) proposals submitted against the relevant Investment Programs in the Regional Investment Strategy 2007-2010 and to select proposals to continue to stage two of the process, the submission of a full application.

Readers are reminded that a two stage Expression of Interest process was used as the procurement method where the Board considers that specialist skills and experience are required to achieve the relevant Management Action Targets.

The following organisations have been invited to continue to stage two and submit a full application to the Board by the 26th September.

| Investment Program No. | Investment Program Name | Organisation(s) |
|-------------------------------|--|--|
| Program 004 | Fire: research and strategic development | Bushfires NT |
| Program 005 | Fire: regional planning | Central Land Council Greening Australia |
| Program 015 | Scenario Planning: climate change | Charles Darwin University and WWF Australia to collaborate |
| Program 016 | Scenario Planning: shared landscapes | Charles Darwin University |
| Program 021 | Collaborative Water Monitoring | Greening Australia |
| Program 022 | NAP | Charles Darwin University |

Sue van-Cuylenburg
