Vision

Implement and build on the vision and aspirations of the Northern Territory Integrated Natural Resource Management Plan (INRMP).

Maximise the capacity of the key stakeholders to address NRM issues in the NT through investment in innovation, skill development, knowledge, cooperation, collaboration and leverage in the Northern Territory.

In performing its role the NRMB recognises the shared challenges and opportunities in building sustainable livelihoods in remote and infrastructure poor regions.

Purpose

The NRMB has been established in order to implement a strategic approach to natural resource management through the Northern Territory Integrated Natural Resource Management (INRM) Plan and Regional Investment Strategy (RIS), as agreed from time to time by the Northern Territory and Australian governments.

The NRMB will be responsible and accountable for:

- identifying and integrating opportunities and priorities for the management of the natural resources of the Northern Territory particularly through review of the INRM Plan and RIS as appropriate;
- promoting and nurturing partnerships aimed at achieving the outcomes of the INRM Plan;
- managing investment funds made available to it by Governments or other investors;
- reporting to stakeholders (including managers of natural resources, community organisations and groups) on the processes for and outcomes of such investments.

Membership

The Natural Resource Management Board (NT) Inc (NRMB) is a non-profit incorporated association that has been set up jointly by the Australian and Northern Territory governments to provide strategic coordination of NRM in the Territory and oversee the investment of NHT and NAP funds.

The NRMB was officially incorporated on 1 December 2005.

The NRMB consists of six members including an independent Chairman who are appointed by the Chief Executive of the NT Department of Natural Resources, Environment and the Arts.

Membership of the board is based on the skills and knowledge required to support best practice governance, business administration, legal and contractual issues, as well as the capacity building, social and economic development, natural resource management/ systems/ research, and/or NT Government NRM policies and strategic direction. The Chairman and members have skills and knowledge in one or more of these areas.
